*PSYC 4197W may be substituted for one Area IV lab course. If substituted, take one other 2000-level or above PSYC course.

Restrictions

- No more than a combined total of 3 credits of PSYC 3889 or 3899 can be used.
- PSYC 3880 cannot be used, because it has an S/U grading designation.

Major Restrictions

- No more than 7 2000-level or above PSYC transfer credits (approved as direct equivalencies by the psychology department) can be used. Transfer credits are any credits received from a non-UConn source.
- Students must earn a minimum of 120 credits to graduate; at least 45 credits must be numbered 2000 or above.
- Students must maintain a GPA ≥ 2.0 in the major and a GPA ≥ 2.0 overall to graduate.

Minor Restrictions

- Students must earn a C (2.0) or better in each course.
- Substitutions are not possible for required courses in the minor.

Notes

- Not all courses are regularly offered; underlined courses are typically offered less than once per academic year at Storrs.
- A score of 4 or 5 on the AP Psychology test equates to 3 generic 1000-level PSYC credits to use toward the overall credits required for graduation; it does not equate to direct credit for any of the 1000-level PSYC courses.

RELATED COURSES (2000-level or above non-PSYC courses)

List of pre-approved courses: undergrad.psych.uconn.edu/relateds

The following courses may not be used as they overlap in content too greatly or are cross-listed with PSYC courses: AFRA 3106/W, COMM 3100, COMM 3103, EEB 3201, EPSY 3010, HDFS 2100, WGSS 3102.

UNIVERSITY REQUIREMENTS

PSYC 2100W fulfills the Information Literacy, Computer Technology, & Writing in Major requirements. Taking PSYC 2100Q, which does not fulfill the Writing in Major requirement, necessitates that a different PSYC W course be taken.

Completion of the following minimum requirements:

- 120 credits total
- GPA ≥ 2.0 (overall & PSYC)
- 45 credits at the 2000-level or above
